Kung ang tagalog ng apple ay mansanas,

## Ano ang paboritong prutas ni Satanas?

[ Aurelia Francia ]

Nakalimutan mo na ba kung bakit bawal ang sakwil sa mundong ibabaw?  
Kung bakit hindi katanggap-tanggap at hinatatakwil ang mga nagkaka-bungang-araw  
Lahat ay ipinapoton sa Dipitan at ginili dahil sa kanilang alingawngaw  
Sa bawat pagyuko para sa bigas ay sinisinsigil, asan na ang tubong fugaw?

Maaaring hindi naging sapat ang dantaon para sa bagong kinabukasan  
Punong puno ng ginto ang kanilang pugad, samantala ang mga mahirap isang buwan nang ulam ay talong.  
Ang mahirap sa sistemang balikad: ang mga nasa laylayan ng lipunan ay patuloy na uwong-sulong  
Samantala tanggian mayayaman ang naunlad at tanggol bala ang kanilang pasalubong.

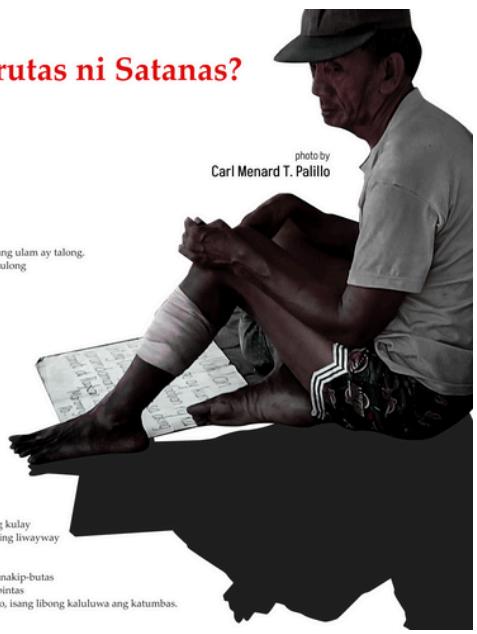

Maaring malaya ang banoy sa paglilipad, ngunit ang mga sisive ay natatiling kulog  
Kailangan pa bang manlimos para sa piging nang hindi naikippaglibing  
Sa bawat paglabag nila sa batas, walang nerbyo, talagang napakagaling  
Mahirap makikuba kung nakagapos at kinakatay ang aming mga leeg na parang kambing.

Sabi ng matandang na lamang ang may ulan, oo pero mas light ang mangangong  
Masasog mo ba kung sino ang nagratuloy sa mga alibugha sa Malacañang?  
Kabalustagan ay pinapapaggatuloy nila, hindi ba dapat sila ang Katuwang?  
Sa pag-unlad? Sa pag-asenso? Sa pag-angat? Bakit nangangamoy walang pukinabang?

Ang may malinis na kaloban ay walang kinakatakan, mali.  
Sila, mahimbing na ang tulog, samantala tayo abala pa sa paghulukay  
Matatay ako kasabay ng mga ramilyenteng bilog na inilay, nabulos, nalanta, nawalan na ng kulay  
Malibuhay ka kasabay ng mga pusong hinog sa pagbabago at sa paglaban hanggang sa muling liwayway

Pero kung nais mo talagang malaman ang paboritong prutas ni Satanas,  
Ang puting bahay ang iyong pagtamtamnon, alamin mo na din kung sino ang mga naging panakip-batas  
Kahit sa puso mo ay mag-alihang, surin mo kung nasaan ang bangkay ng mga nagbigay pinitas  
Huwag mong kakaflutuan na karapatian mo na malaman kung toteo na sa bawat kilo ng ginto, isang libong kaluluwa ang katumbas.

**NARRA,**  
The Voice In Our Head

[ phase ]

art by  
Chefeceline Dimaano

is this the end of me?  
no longer in a fantasy  
life nearing to tragedy  
is this what you expect of me?

life of bliss  
that I will miss  
soon be gone  
and soon be none

empty words set ablaze  
a world full of life  
and full of grace  
something I couldn't ever face

are you still here?  
pondering of the after?  
is this what I fear?  
or is this what I'm after?

## Burnt!

[ Kim Russel Abejo ]

The battle that you have made subsided,  
But the fire it left me still at flame,  
If you think I have been wounded,  
Yes. And you are to blame.

Be ready, cause I always am,  
I will not let you forget,  
I will not let you get alm  
But I will let you see red in its palette.

If you sail to the right I will chase you,  
I will hunt you in no time,  
If you wish to be free I will not let you,  
I will not back down, not in my own crime.

In the middle of your sleepless nights,  
And in your wandering dreams,  
I will be there to crush your knights,  
I will burn you by all means.

## Luna, The Eternal Dream [ phase ]

here I lie, for which I see  
a vividly entrancing memory  
glimpse, and you'll see an eye  
I hope this dream never dies

trees are shaking side-to-side  
leaves are falling one-by-one  
place with no laws to abide  
here I claim to be my only one

a lazy dreamer heavily drools  
one could see me as a heavenly fool  
floating amidst a crowded place  
when I see you, I could only gaze

**INFLUENCE OF ICT RELATED COURSES TO TEACHING INTERNSHIP READINESS OF BACHELOR OF TECHNICAL VOCATIONAL TEACHER EDUCATION STUDENTS**

CHERRY ANN P. AMOLORIA

**INTRODUCTION**

Technology is crucial for every one of us, particularly students and educators, as well as future educators, since it provides a variety of benefits, including the ability to understand ICT is not only for students and young people, but for people of all ages. (Insurance Meaning, 2009)

"ICT is a life skill that resembles literacy and numeracy." (Simmons and Hawkins, 2009)

**METHODS**

The research conducted at Dalubawan Lungang ng Lutera (DLI), a government-free local college in Quezon Province, aimed to assess the impact of ICT-related academic performance on teaching internship readiness among third-year BTVTEd students. Utilizing a descriptive correlation design and survey questionnaires, the study analyzed efficiency in application use and predicted internship readiness through multiple regression, focusing on students' readiness for internships.

**RESULTS & DISCUSSION**

Table 1: Influence of ICT related courses to Teaching Internship Readiness

	Regression Statistics
Multiple R	0.50
R Square	0.25
Adjusted R Square	0.17
Standard Error	0.50
Observations	41.00

Table 2: Summary of Level of Teaching Internship Readiness

Very Much Efficient	Very Efficient	Efficient	Somewhat Efficient	Somewhat Inefficient	Inefficient	Very Inefficient
Very Much Efficient	Very Efficient	Efficient	Somewhat Efficient	Somewhat Inefficient	Inefficient	Very Inefficient

The F-statistic of 2.08 and its associated p-value of 0.03 suggest that the independent variables, taken together, have a significant relationship with the dependent variable. Analyzing the coefficients for each independent variable, we can determine their individual significance at the conventional significance level of 0.05.

**CONCLUSIONS**

Respondents are very efficient in using various applications, including Google Classroom/Google Workspace, video editing apps, and Canva.

Respondents performed well in ICT-related subjects, very good in PED 10, good in PED 11, average in PED 12, and excellent in PED 10.

Respondents are very proficient in ICT-related subjects, indicating a high level of readiness for teaching internships.

The findings showed no significant relationship between how efficiently students use different applications and their academic performance in ICT-related courses.
